

# CPWORKS + The Underline

## Our Belief

At Chapman Partnership, we believe that employment can be the turning point in someone's life. That's why we created CP Works, a bridge employment program that provides individuals experiencing homelessness not just a paycheck, but a pathway to self-sufficiency.

## Our Vision

Our vision is to grow CP Works into a countywide initiative—partnering with municipalities and private employers to create a sustainable pipeline to employment for those determined to rebuild their lives.

### Spotlight: Marie Rockemore

Marie Rockemore is one of the first participants in our CP Works program, and her journey is already an inspiring example of what's possible. Through her hard work and dedication, Marie earned her Security Officer license at Miami Dade College and quickly became a role model employee at her placement with The Underline. Her commitment allowed her to secure housing in her own apartment. Marie's success highlights the power of CP Works to create opportunity, and empower individuals determined to rebuild their lives.

# CPWORKS

## PARK STEWARDS

## Who Can Get Involved

CP Works is Chapman Partnership's transformative bridge employment program that partners with municipalities, agencies, and private employers to create a sustainable pipeline for job readiness. CP Works connects individuals to transitional opportunities—establishing pathways to long-term stability while offering employers skilled support. We invite partners interested in beautification or maintenance projects to contract with CP Works and join us in building stronger communities.

## How the Program Works

### Park Stewards Program

in partnership with The Underline to care for Miami's 10-mile linear park

### Education & Training

Access to industry recognized certifications and skill development

### Career Pathway

Building resumes and preparing for full-time employment opportunities

### Living Wage

Empowers clients to achieve stability and independence
